ELECTION OF SPECIES

This communication is responsive to the Office Action mailed on January 30, 2004, requiring an election of species. The Examiner indicated that the claims of Group I, claims 1-25, are directed to several patentably distinct species.

The Applicant hereby elects Species A for prosecution on the merits. This election is made without traverse. The Examiner has defined Species A to include, as structural elements, a flexure as one of the first and second components and a load beam as the other of the first and second components. It is submitted that at least claims 1 and 8 read on a method involving the structural elements of Species A.

No fee is submitted with this paper. However, in the event that a fee is required for entry of this paper, the Commissioner is authorized to charge our Deposit Account No. 06-0029 and is requested to notify us of the same.

If any issues are outstanding after entry of this paper, the Examiner is invited to call the undersigned attorney at the telephone number given below.

Respectfully Submitted,

DAVID J. ZACHMEYER
